Hi Mark and Sujatha,

Attached are clean (mostly) and marked-up versions of the clothi/thia RAs from when you saw them all the way back before the shut down (gasp!). The non-Ag section is something that you have not seen before. There are a couple items/comments left in the clean version—most of them are just responses to some of Mark's comments that I thought he might want to see (*e.g.* poultry house section), but a few are also questions from us to you (*e.g.* see incident section) and 1-2 are remaining small items that we decided should also be done (*e.g.* I need to add some stuff to the ornamental graphs).

Thanks,
